

Jaryn Weinel

Evansville, IN | Open to relocation | jaryn04@gmail.com

jaryn2.github.io | github.com/Jaryn2 | LinkedIn

EDUCATION

University of Southern Indiana

Expected December 2027

B.S. in Computer Science, Software Engineering focus

Enrolled August 2025

Purdue University | Previously attended

August 2023 - May 2025

PROJECTS

Stockroom | Personal Project

September 2026

Java, Spring Boot, React, TypeScript, PostgreSQL

- Built a warehouse practice app for order picking, shortages, stock change requests, and manager approval, with an activity record for each change.
- Used SQL transactions, row locks, version checks, and request keys to protect stock counts during concurrent picks and repeated requests.
- Added real HTTP and PostgreSQL tests for role checks, invalid quantities, duplicate requests, and conflicting updates; ran builds and tests in GitHub Actions.

FiberScout | Personal Project

September 2026

TypeScript, Next.js, Python, C#, PostgreSQL/PostGIS

- Combined Census and FCC data for 190 Ventura County census tracts into maps, comparisons, scenario calculations, and PDF/CSV exports.
- Added a C#/ASP.NET Core API with account ownership checks, saved revisions, duplicate-request handling, and edit-conflict checks.

Public walkthroughs and source links on my portfolio. New app backends run locally.

TECHNICAL SKILLS

Languages used: Java, TypeScript, Python, C#, SQL, HTML, CSS

Frameworks and data: Spring Boot, React, Next.js, ASP.NET Core, PostgreSQL/PostGIS

Tools: Git, GitHub Actions, Docker; Excel (basic coursework)

Coursework: Java; C/C++ (introductory)

WORK EXPERIENCE

Frito-Lay | Product Handler

February 2026 - July 2026

- Picked boxes from warehouse aisles and loaded carts.

The Servants Inc. | Factory Float

June 2024 - December 2025

- Helped with factory tasks wherever additional support was needed.

ATHLETICS

Former track and cross country student-athlete at Purdue (August 2023 - May 2025) and the University of Southern Indiana (one semester).
